

D. Remarks

This Amendment After Allowance is merely to correct obvious typographical errors in the specification and the claims. Specifically, the units designating the gas density were erroneously listed as “g/cm<sup>2</sup>”, and have now been corrected to properly read “g/cm<sup>3</sup>” both in claim 12 and in the specification.

Clearly, no new matter has been added. It is also clear that this Amendment creates no new issues nor does it require a new search or reexamination. In fact, the Examiner advised the undersigned on September 13, 2006 that the above correction in the units of gas density would be acceptable under 37 C.F.R. § 1.312 and agreed to enter this Amendment. Wherefore, expedient entry of this Amendment is respectfully requested.

Applicant’s undersigned attorney may be reached in our New York office by telephone at (212) 218-2100. All correspondence should continue to be directed to our address given below.

Respectfully submitted,

/Jason M. Okun/
